ANDREW MCBEAN – CEO - PKF HOLDINGS (THAILAND) LIMITED

I commit to be an active board director on behalf of the membership. Being active to me goes beyond turning up for meetings/networking but rather being active in committees, discussions, and events, also acting as a conduit to the board of member views and feedback, and driving results through enthusiastic participation. I am a businessman and probably my main interest is how to stimulate both trade for our BCCT members in Thailand, but also that of UK companies. This is especially important as we head in to some profound changes both globally and in the UK and Thailand. I would like to see closer and more active trade between the UK and Thailand and particularly one that benefits BCCT members recognizing that a great many of our members are SMEs.

In my working role in Thailand I am the Thailand CEO of the global accounting firm PKF. Our offices are in Chong Nonsi and we are also the only global accounting firm with an active branch in the Eastern Seaboard. Previous to working at PKF I was a Partner at Grant Thornton, Senior Vice President at dtac and General Manager of Microsoft Thailand.

I have been living and working in Thailand for nearly 16 years and I became a Thailand Permanent Resident in 2012. I was previously an active Board member for BCCT for 4 years, chairing the Overseas Business Networking Steering Group comprising members of the BCCT board and embassy UKTI staff and also chair of the BCCT ICT (as it was then) committee. I stepped down from the board about 3 years ago as I was studying for an Open University BSc degree and I did not feel I could commit the necessary time to the Board that it required at that time, a situation which has now changed.
